

YOUR
ENGLISH
HOMEWORK

In year 5

I klass 4 byggde eleverna, genom boken ”Small Steps”, upp ett stort förråd av engelska ord inom flera olika vardagliga teman.

I klass 5 övergår läxorna i större grad till att utveckla kompetensen att kunna skriva sammanhängande meningar för att göra sig förstådd i skrift.

Eleverna förväntas nu kunna läsa och tillgodogöra sig instruktionerna på engelska till de olika läxorna.

Det hindrar inte att du som förälder förtydligar instruktionen på svenska.

Alla ska uppmuntras att använda ordlista eller internet när de behöver översätta ett ord från engelska till svenska eller tvärtom – det är inte fusk utan ett verktyg i språkinläringen!

Här följer 28 läxor i engelska. Läxorna är numrerade och i veckobreven kommer det att stå när varje läxa ska vara gjord.

Om någon tappar bort sitt läxhäfte finns de engelska läxorna också på hemsidan.

Hör gärna av er om ert barn upplever läxorna för lätta eller för svåra, så kan jag anpassa läxan så att den blir en lagom utmaning för alla!

Mvh Lena

Whales

There are many sorts of whales. They look like fish, but they are mammals and have warm blood and lungs. They can stay under water for a long time – more than half an hour – but they must come up regularly to breath air. They have a blow hole on the top of their heads and a lot of blubber under their skin to keep them warm. They all have flippers and strong tales. Many whales live in or near the Antarctic.

Help! No TV!

*This is a story about what happened to Bob yesterday.
Please answer the questions.*

Yesterday afternoon when I came home from school I hurried up to the television and switched it on.

But what was this? There was no picture. The screen looked like a noisy snow storm. I tried all the channels but they were all the same. Nothing!

I always watch *Junior World* that starts at half past three and I really didn't want to miss it.

Now answer questions 1, 2 and 3.

1 What sort of programme does Bob watch on TV every afternoon?

- a A programme about animals.
- b The weather report.
- c A programme for young people.
- d A sports programme.

2 What is the programme called?

3 What was the problem?

- a The programme was already over.
- b It started to snow outside.
- c Bob couldn't watch TV.
- d The music was too noisy.

I ran over to my friend Sue who lives next door. But it was the same problem there. No picture! Then Sue said, “Why don’t we do our maths homework together? We’ve got nothing else to do.”

So we did our maths and it didn’t take more than half an hour. I usually don’t do my homework until much later, and then it takes much longer.

Now answer questions 4, 5 and 6.

4 Who is Sue?

5 What did Bob and Sue do?

6 How long did it take?

minutes.

St Paul's Cathedral

St Paul's Cathedral is one of the most famous churches in the world. It has got an enormous dome, second only to St Peter's in Rome. During the Second World War, most buildings round St Paul's were bombed to the ground – but not St Paul's. That was a miracle. You should visit the Whispering Gallery in the dome and listen to the largest bell in England, Great Tom. It chimes for five minutes every day at one o'clock.

Finding a friend

Jane usually goes to her new school by bike. She doesn't usually go by bus because she doesn't like all the noise on the bus. It's Jane's first term at the new school. She doesn't know anyone, so she doesn't like it much. But there's one girl in her class she thinks is nice. She's not very tall and she's got dark hair. She looks a bit like Jane. Her name is Jessica. Jane doesn't know where she lives, but she knows she lives near her house, because she sees her catch the bus every morning.

The whale that lost its way

One day Roger and Sarah went down to the beach for an early morning swim.

When they came there, they saw something on the sand halfway under water. It was something very big and black, and it was absolutely still. They walked closer, and saw what it was – a whale! Roger was very surprised, whales use to live out in the deep water! It was about six metres long and one metre high at its head. It must have lost its way, and got stranded on the sand. Poor thing. Sarah and Roger would do anything to save it! First of all they had to keep it cool. The sun would be too hot for it. They had to pour water over it all time. Then they must dig a channel round it so that it could lie in water. They got a lot of friends and parents to come down to the beach and they all worked hard to save Wally. That was the name Sarah gave it: “Wally the Whale”. They got a rope and tied it round Wally’s tail. Then they tied the rope to a boat and they started to pull. Slowly Wally slid out into the sea and they untied the rope round his tail. Then he disappeared into deeper water. It looked like he waved his tail at them. Maybe he wanted to say “thank you”...
